THE ARREST OF THE FRENCH GENERALS-Runantic Incident of Cavargnue .- The correspondent of the London Morning Chronicle has the following interesting details relative to the arrest of the Generals:-

Among the favorite subjects of gossip are, o ourse, the recent arrestations of the military eaders. It is profoundly remarked that the characters of these judividuals were well illus trated by their various behaviour when inform-

General Bedeau, whose disposition is stated o be of a wily, scheming and "managing" or der, entered into argument and discussion, insisting on considering the matter of his arrest in a variety of lights, for the improvement of his captors' minds, and finally arrayed himself en grande tenue, in order to avail himself of whatever influences his uniform should chance cribbie about Webster or Fillmore, but that is to possess with those he might meet on the way. Scott is but a sorry chance, but s'ill it's a chance, etty replied that he saw such was the case, and and a mistake in a democratic nomination may that he was well aware that Gen. It is, I trust, not below the "dignity of his ory" to add that Gen Cavaignac forthwith addressed a letter to the young lady whom he was so shortly to have espoused, in which he chivalrously declared that he conceived that the event which had occurred had entirely deprived him of any right to consider her bound by engagements ma oth a free man, and he formally released her These men now intend to dictate. Several blacks of Haoussa and Adama wah related to me that they had taken part in expedi-tions against a nation called Niam-Niams, who had tails. They traced their route, on which they encountered tigers, giraffes, elephants, and wild camels. Nine days were consumed in traversing an immense forest. They reached at ength a numerous people of the same complexion and frame as themselves, but with tails from twelve to fifteen inches long. This organ or excresence they described as smooth and mo-tionless. The Housses massecred the greater part of the tribe; among the bodies were some emales with the same appendage. Both sexes went entirely naked. Some lived in straw hov. els, but the greater part lived in caves. The only article of furniture seen among them was a wooden bench, pierced with a hole for the

accommodation of the tail." This last circumstance is comical enough; the witnesses were seven or eight, who ileclared that they had handled the excrescence, cut it, ruin the British fatmer; but the protectionist in and so forth. Then came a maid of similes and tears-Of smashine soft, and gentle snowers, To win thee from thy grief and tears With an offering sweet from rosy bowers,

But this fair gift seemed vain for thee, And soon the restless translent thing, With all her smiles and purity, Passed away on a zephyr's wing.

Then a damsel, rosier still, Reclined among the howers she twined.

And seconed content awhile to fill Thy cup with all life's joys combined. But when with cares thy cheek was pal'd,

And sad the brow so much admired, the, like a nun, her beauties veiled And from the tading world retired. Though ere distress thy heart subdued.

Or. Guysoft-Dear Sir: I have been for years very ach out of health; I had lost my appetite, and was, by ells, very sick at my stomach. I was very much with drowsiness and general debility. My husband pur-chased one bottle of your valuable Strup, and hefore I had taken that one bottle my appearance was very much improved, and I am now enjoying good health. I found our medicine as good as it was recommended.

S. F. Bennett—Dear Sir: I purchased a short lime ago a hottle of your Yellow Dock and Sarsaparlla for my wite, which she has used for her compaint, Erysipelas and Weakness, Falling of the Womb, etc., and it has aircady hetped her very much. Of the Erysipelas it has effected nearly a come. I have just purchased a second hottle, and judging from the effect of the former, feel confident that it will effect a perfect cure.

Norway, Herkimer co., February, 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadibl, loainsome disease. Errstpelas, with which he was attacked in 1848, and was for aeveral months attended by some of our dest physicians, who tried their skill perseveringly for five months, without any heneficial effects whatever. He became reduced to a perfectiskeleton. He had ulcers from ms hip down to his knee, which were continually discharging offensive marter. Medical and surgical skill was haffed. Physicianssaid that his case was hopeless—there could be nothing done to arrest those terrible gangreaing ulcers. My neighbors and myself thought mis dissolution near at hand. One of my neighbora, who had cured a child of scroula with your invaluable medicine, wished me to make a trial of it, and more form the restless desire to do something while life lasted than from any hope of getting relief, I procured three hottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment he commenced to improve before he had used the third bottle, and be forche had used half a dozen bottles he could walk out. He used in all twelve hottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the hiessings of God, is entirely owing of the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great ohigations to you, and it is with giveral joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully,

JAMES RUSSEL.
